Trinco Technologies Selects Digitiliti's Universal Archiving Platform to Implement Public Service Sector Information Management Projects

Trinco cites unique, innovative architecture as key to its decision

ST. PAUL, Minn., Dec. 20, 2010—Digitiliti, Inc. (OTCQB: DIGI), a technology pioneer in [information archiving software](#) for unstructured data, today announced that Trinco Technologies, LLC, a national information technology (IT) services leader, has selected Digitiliti's [DigiLIBE™ Universal Archiving Platform](#) as its product of choice for implementing client projects.

DigiLIBE is the world's first and only universal archiving platform, a single architecture for storing and accessing diverse and massive amounts of unstructured data residing in content located throughout an organization. The platform is comprised of data storage, [active archiving](#), [data life cycle management](#) and policy-based control of unstructured data.

"DigiLIBE is an incredibly straightforward, powerful archiving platform that will let our customers find a treasure-trove of information from all of the content residing on their networks," said [Chad Rueckert](#), account executive, [Trinco Technologies](#). "The fact that it's a single, universal architecture instead of a bunch of legacy applications forced to work together means we can implement faster and our customers are assured of ongoing cost and operational efficiencies, as well as reduced compliance risk."

Trinco Technologies implements information-management projects for the public service sector, including state and local governments, federal agencies and non-profit organizations. It has offices in Irving, Texas; St. Louis, Mo.; and Madison, Wis.

Commenting on the new relationship, Digitiliti's President and CEO [Ehssan Taghizadeh](#) said, "Trinco Technologies is a highly respected company with a proven track record of selling, implementing and supporting solutions for a premier client base. We're really pleased about the partnership."

About Trinco Technologies, LLC

Trinco Technologies, LLC is an information technology services provider focused on the public service sector. With offices in Irving, Texas; St. Louis, Mo.; and Madison, Wis.; Trinco Technologies was formed to help both government and nonprofit organizations address their unique IT challenges. As an IT service provider Trinco Technologies offers value to our clients in terms of cost-efficiency, delivery excellence, and leadership. Our clients include Fortune 100 companies, state and local governments, federal agencies and non-profit organizations.

About Digitiliti, Inc

Digitiliti develops and sells innovative archiving management software that addresses the cost, complexity, and compliance issues associated with controlling and utilizing unstructured data. The company's products and services are easy to use and implement, cost-effective and deliver the right information needed for its clients to make more informed, fiscally responsible business decisions. Digitiliti services include DigiBAK™, a complete [offsite data-protection/disaster recovery](#) solution, and DigiLIBE, a unique universal archiving platform that allows customers to extract and use the valuable business knowledge hidden in their unstructured content. Digitiliti markets and sells its software solely through its worldwide network of channel partners. For more information, visit: www.digitiliti.com.
